**HistoryLink.org is the free online encyclopedia of Washington State history.** To make it easier for you to fulfill the new state requirement to incorporate tribal history into K-12 social studies curricula, we have put together a set of resource lists identifying essays on HistoryLink that explore Washington's tribal history. **Click on the linked essay number**, or enter the number in the search box on HistoryLink.org.

HistoryLink's content is produced by staff historians, freelance writers and historians, community experts, and supervised volunteers. All articles (except anecdotal "People's History" essays) are fully sourced and carefully edited before posting and updated or revised when needed. These essays are just a sampling of the tribal history available on HistoryLink. Search HistoryLink to find more and check back often for new content.
